Evidence Checklist - Activity 4

Resilience Ecosystem After a Service Surge

[ ] Public facts are cited and separated from training assumptions.

[ ] Every scenario question is answered with evidence or a stated limitation.

[ ] The detailed procedure was followed and each checkpoint is recorded.

[ ] Owners, decision rights, dates and review triggers are explicit where applicable.

[ ] Acceptance test met: The plan removes or reduces at least two preventable demands, adds team and organisational resources, treats individual training as complementary, includes safe escalation and has balanced employee/service measures.

[ ] The final recommendation states residual risk and the next validation action.
